Experience

Java Developer Trainee | *HulkHire*

Apr 2026 – Ongoing

- Built backend services using **Java, Spring Boot, REST APIs**, improving modularity and scalability.
- Designed **microservices architecture** using IOC/DI and Spring Boot auto-configuration for loosely coupled systems.
- Deployed services on **AWS EC2** and containerized using **Docker** for consistent environments.
- Integrated **PayPal APIs** with OAuth, enabling secure order and payment workflows.
- Optimized backend performance and debugging in an **agile development environment**.
- Implemented caching and optimized APIs, improving response latency under concurrent load.

Education

Vellore Institute of Technology, Bhopal

2022 – 2026

B.Tech in Computer Science and Engineering

CGPA: 8.37/10

Technical Skills

Languages: Java, SQL, JavaScript, TypeScript

Backend: Spring Boot, Spring MVC, Spring Security, JPA/Hibernate, REST APIs, WebFlux, JWT, OAuth 2.0

Databases: PostgreSQL, MySQL, MongoDB, Redis

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Cloud & APIs: AWS EC2, Razorpay, PayPal API, Cloudinary, Gemini, Stability AI, Replicate, SMTP

DevOps & Tools: Docker, Docker Compose, Nginx, Git, Maven, GitHub Actions, Postman, JUnit

System Design: Microservices, Caching, Rate Limiting, API Design

Projects

Invoiceo | [Live]

Jan 2026 – Mar 2026

Java, Spring Boot, React, PostgreSQL, MongoDB, Docker, JWT, Razorpay, WebSocket, Apache POI

- Built a scalable full-stack invoice platform using **Spring Boot and React** with dual-database architecture (PostgreSQL + MongoDB).
- Implemented **JWT authentication, Google OAuth, RBAC**, and Spring Security for secure access control.
- Engineered a **GST calculation engine** supporting automated tax computation and PDF invoice generation.
- Integrated **Razorpay payments** with webhook handling and real-time invoice updates using WebSocket.
- Built analytics and export module using **Apache POI** for CSV reports with filtering and dashboard insights.
- Containerized the application using **Docker** and deployed via CI/CD pipeline.

LumiAI | [Live]

Oct 2025 – Dec 2025

Java, Spring Boot, React, MySQL, Redis, Docker, JWT, Razorpay

- Built scalable backend integrating **Gemini, Stability AI, and Replicate APIs** for AI-based image generation.
- Implemented **JWT authentication, Google OAuth, and RBAC** using Spring Security for secure user management.
- Designed a **credit-based payment system** using Razorpay with secure transaction handling and tracking.
- Optimized performance using **Redis caching** and asynchronous processing for concurrent requests.
- Containerized application using **Docker multi-stage builds** with Nginx for production deployment.

Certifications

OCI Generative AI Professional | Oracle

Oct 2025

AWS Cloud Practitioner Essentials | Amazon Web Services

Apr 2025

Docker Foundations Professional Certificate | Docker Inc.

Dec 2025

Java & Data Structures and Algorithms | Coding Blocks

Jan 2025

Achievements

Competitive Programming: Codeforces Rank **979**, LeetCode Rank **1504**, CodeChef Rank **1428**.

Data Structures & Algorithms: Solved **400+** problems with **94% acceptance rate** on LeetCode.

Hackathon Finalist: Selected among **Top 30 teams in India** at GrabHack Hackathon.

Extracurricular Activities

President — Gujarati Club, VIT: Led **100+** members and increased participation by **2×**.

President — Ramanujan Club: Organized **5+** events engaging **500+** students.

Event Coordinator: Managed **10+** events, improving participation and execution.
